Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from The Eclectic Medical Journal, Vol. 57: January to December, 1897 I claim nothing new for the use of morphia in these cases except as to the time of its administration. The young doctor will make misc takes here as well as elsewhere. Not too early nor too late; just the happy mean, and on his ability to judge Of that time, will depend his success. Don t be too impetuous in the management of your first labors. Make haste slowly. Study your cases carefully. No description is like a bedside experience in teaching you to see with your finger tips. I agree with the editor that a reasonably rapid labor is prob ably the safest; but too much haste is just as bad. The soft parts must have time to adjust themselves. The perineal muscles must be tired out, hence a too rapid advance, by natural or artificial means, may be equally destructive. I have told you that the explosive forms of labor did not give the peritoneal structure time for adjustment; you know that a muscle in a state of...
