Next Century Pub, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book. The book Walking Wounded teaches the reader how to identify their own personal wounds in life and provides step-by-step instruction on how to resolve those wounds and come to a place of wholeness. While some wound behaviors are obvious, some behaviors are more subtle. A select few, who are wounded, can connect the dots between their obvious or not so obvious wounds and the wound behaviors they act out. Yet, others have a difficult time connecting the dots and do not understand why they are acting out these wound behaviors, and subsequently have a hard time accepting the truth when they hear it. Therefore, Dr. Mark Jones walks the reader through the process of identifying wound behavior patterns and instructs on how to remove destructive patterns and replace them with the right, productive ones. Unfortunately, it is impossible to...
