

Mathematics Curriculum: Issues,Trends, and Future Direction, 72nd Yearbook

By Barbara J. Reys, Robert E. Reys

National Council of Teachers of Mathematics,U.S. Hardback. Book Condition: new. BRAND NEW, Mathematics Curriculum: Issues,Trends, and Future Direction, 72nd Yearbook, Barbara J. Reys, Robert E. Reys, Mathematics curriculum has long been a topic of keen interest in mathematics education and remains a central issue in efforts to improve mathematics learning opportunities for students.This Yearbook continues in a long line of NCTM Yearbooks that have addressed various facets of the changing mathematics curriculum. Although some factors such as tradition can inhibit significant change, other factors such as policy (e.g., federal No Child Left Behind legislation), societal needs (mathematically literate graduates), and technological advances (computer software, calculators) foster and accelerate the need for change.In the past year alone, a major state-initiated process for developing "common core standards" is underway. This Yearbook reflects some of the many issues that the field is currently discussing so it serves as both a record of current advances and a summary of challenges regarding curriculum. We hope that it will both guide and stimulate thinking about where we have been, where we are and where we need to go.

Reviews

I just started off reading this article publication. It is definitely simplistic but surprises in the 50 percent of your ebook. You are going to like how the author create this publication.

-- **Clint Labadie**

This ebook is definitely not easy to get going on looking at but quite fun to learn. We have read and so i am sure that i will gonna study once more yet again later on. I am very happy to inform you that here is the finest publication i actually have read inside my personal daily life and might be he best publication for possibly.
