Brilliance Corporation, United States, 2013. CD-Audio. Book Condition: New. Unabridged. 165 x 140 mm. Language: English . Brand New. The book that helped make Michael Pollan, the New York Times bestselling author of *Cooked* and *The Omnivore s Dilemma*, one of the most trusted food experts in America. Every schoolchild learns about the mutually beneficial dance of honeybees and flowers: the bee collects nectar and pollen to make honey and, in the process, spreads the flowers genes far and wide. In *The Botany of Desire*, Michael Pollan ingeniously demonstrates how people and domesticated plants have formed a similarly reciprocal relationship. He masterfully links four fundamental human desires sweetness, beauty, intoxication, and control with the plants that satisfy them: the apple, the tulip, marijuana, and the potato. In telling the stories of four familiar species, Pollan illustrates how the plants have evolved to satisfy humankind s most basic yearnings. And just as we ve benefited from these plants, we have also done well by them. So who is really domesticating whom? Praise for the narrator: Scott Brick uses his skill with expression to produce an audible intoxication. AudioFile.
