Reviews

Excellent e-book and useful one. It is written in straightforward phrases rather than confusing. I am just very happy to explain how here is the finest publication I have got read through in my very own lifestyle and might be the greatest book for possibly.

THE ROUTLEDGE HANDBOOK OF DIGITAL WRITING AND RHETORIC (HARDBACK)

Taylor Francis Ltd, United Kingdom, 2018. Hardback. Condition: New. Language: English . Brand New Book. This handbook brings together scholars from around the globe who here contribute to our understanding of how digital rhetoric is changing the landscape of writing. Increasingly, all of us must navigate networks of information, compose not just with computers but an array of mobile devices, increase our technological literacy, and understand the changing dynamics of authoring, writing, reading, and publishing in a world of rich and complex texts. Given such changes, and given the diverse ways in which younger generations of college students are writing, communicating, and designing texts in multimediated, electronic environments, we need to consider how the very act of writing itself is undergoing potentially fundamental changes. These changes are being addressed increasingly by the emerging field of digital rhetoric, a field that attempts to understand the rhetorical possibilities and affordances of writing, broadly defined, in a wide array of digital environments. Of interest to both researchers and students, this volume provides insights about the fields of rhetoric, writing, composition, digital media, literature, and multimodal studies.
