

Your Living Mind The Mystery of Consciousness and Why It Matters to You

Filesize: 1.88 MB

Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Camille Larson)

YOUR LIVING MIND THE MYSTERY OF CONSCIOUSNESS AND WHY IT MATTERS TO YOU

[DOWNLOAD](#)

Living Arts. Paperback. Condition: New. 350 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. An Adventure of the Mind An Exploration of the Senses Many people believe that consciousness occurs within the brain, but could this really be true For decades, scientists and philosophers have been struggling with deep puzzles about mind and body, puzzles that make it very hard to understand how conscious experiences could occur inside of our heads. This book opens a window into the intriguing story of this hidden conversation. If you liked Consciousness Explained by Daniel Dennett or Soul Dust by Nicholas Humphrey, or you have enjoyed readable books and articles about neuroscience, you'll enjoy Your Living Mind. It's a multifaceted meditation on being a brain, and an invigorating workout for both your intellect and your imagination. This book was written for several kinds of readers. Do any of these statements fit for you You want to develop a well-crafted personal philosophy of life. Understanding consciousness is part of that quest. You want to learn about yourself, to know who and what you are. You have been interested in the big questions of philosophy and psychology, and you'd like to revisit this sort of reflection. You have already studied consciousness, and you enjoy playing with new ideas about philosophical zombies and other enigmas. Your Living Mind confronts the most bewildering puzzles in philosophy of mind. You will find out how dedicated scholars have struggled with these riddles, apparently without success. This book's unique format enables you to read some sections casually and delve into others more deeply. When you come to an especially interesting topic, you can read the detailed footnotes and the clearly-marked technical sections. With lower-priority topics you can skim or skip these optional materials. Your Living Mind explains subtle ideas in clear and straightforward...
