## PATTERN SEARCH RANKING AND SELECTION ALGORITHMS FOR MIXED-VARIABLE OPTIMIZATION OF STOCHASTIC SYSTEMS

Biblioscholar Okt 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x15 mm. This item is printed on demand - Print on Demand Neuware - A new class of algorithms is introduced and analyzed for bound and linearly constrained optimization problems with stochastic objective functions and a mixture of design variable types. The generalized pattern search (GPS) class of algorithms is extended to a new problem setting in which objective function evaluations require sampling from a model of a stochastic system. The approach...

## Reviews

*This type of publication is every little thing and got me to seeking in advance and much more. I could possibly comprehended every little thing out of this created e publication. I am happy to explain how this is the finest pdf we have study in my very own life and can be he greatest ebook for actually.*
