Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Second Report of James Higgins, M. D: State Agriculture Chemist, to the House of Delegates of Maryland The State Agricultural Chemist has the honor to submit to the House of Delegates of Maryland, the following Report: A very brief and imperfect history of Agriculture will show what progress it has made, and what have been its means of improvement. From its present condition we may judge whether these same means are sufficient, or whether other resources should not be obtained for, and new principles be applied to it. If Agriculture at present is as perfect as from its nature it can be, then let us only follow in the paths of those who have preceded us; if it be capable of improvement, we should at once adopt means to effect that improvement. Agriculture as an art has had the benefit of the recorded teachings of experience for three thousand years, and yet is far, very far, below perfection. Nay, more, it is but little more perfect now than at the Christian era, and its improvements are almost exclusively of a mechanical nature, owing their existence to the application of science to mechanics. If, with empirical experience in such a length of time, it has made such little progress, should it not now invoke the aid of science, and especially of that science which, to a great extent, has contributed to perfect every art that has sought its assistance? The literature or description of any art is generally in proportion to the degree of excellence to which that art has attained. Judging ancient and modern Agriculture by this rule, the preference is greatly due to that of ancient times,...
