Not only does it teach you how to use Photoshop 5.5 tools, but also how to make its key concepts part of your conceptual and creativity processes. Author Gary Bouton has designed a systematic approach to working with the software that reinforces and enhances your skills. He shows you what the creative process demands of you, and how you can meet those demands: from creating a cool Web site to integrating text from other programs; from the ins and outs of good typographic layouts to math formulas for successful output; and much, much more. Discover why his approach to teaching has helped thousands of Photoshop users get up to speed quickly and start earning money with their new skills. 529 pp. Deutsch.
