

## Handbook of Creativity (Hardback)

Filesize: 6.01 MB

### ***Reviews***

*This book is very gripping and exciting. I was able to comprehend everything out of this written publication. You will not truly feel monotony at any time of your respective time (that's what catalogs are for concerning should you question me).*

## HANDBOOK OF CREATIVITY (HARDBACK)

Springer Science+Business Media, United States, 1989. Hardback. Condition: New. 1989 ed.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The motivation underlying our development of a handbook of creativity was different from what usually is described by editors of other such volumes. Our sense that a handbook was needed sprang not from a deluge of highly erudite studies calling out for organization, nor did it stem from a belief that the field had become so fully articulated that such a book was necessary to provide summation and reference. Instead, this handbook was conceptualized as an attempt to provide structure and organization for a field of study that, from our perspective, had come to be a large-scale example of a degenerating research program (see Brown, Chapter 1). The handbook grew out of a series of discussions that spanned several years. At the heart of most of our interactions was a profound unhappiness with the state of research on creativity. Our consensus was that the number of good works published on creativity each year was small and growing smaller. Further, we could not point to a journal, text, or professional organization that was providing leadership for the field in shaping a scientifically sound framework for the development of research programs in creativity. At the same time, we were casting about for a means of honoring a dear friend, E. Paul Torrance. Our decision was that we might best be able to honor Paul and influence research on creativity by developing a handbook designed to challenge traditional perspectives while offering research agendas based on contemporary psychological views.
