

Film and surface coating technology. modern (fine) Chinese non-ferrous metal series

Filesize: 1.14 MB

Reviews

A fresh e book with a new viewpoint. It is among the most awesome ebook we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Prof. Christelle Stark III)

FILM AND SURFACE COATING TECHNOLOGY. MODERN (FINE) CHINESE NON-FERROUS METAL SERIES

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 619 Publisher: Central South University. Pub. Date :2008-07-01 first edition this book from the film and surface coating technology. modern meaning. classification. application and development proceed. a more detailed description of analysis of the various types of modern Surface characteristics. scope. typical technical route. process equipment and application examples. The book is divided into seven chapters. the main contents are: Introduction to surface technology and engineering. thermal spray technology. modern materials. surface modification techniques. thin-film chemical vapor deposition. physical vapor deposition of thin film technology. surface treatment technology and composite materials. ion-surface micro-machining technology and so on. And to study closely the development of experimental application examples. reflecting thin-film coating materials and surface technology progress and modern trends. to some of the latest research and engineering applications to do everything we can to be reflected in the various chapters of; as surface and the overall The optimization of the design. manufacture. possessed good overall performance for the preparation of thin film and coating features excellent technical reference. This book can be used as film coating materials with a basic textbook. Related materials for the professional and high-grade tertiary students. The same time. for various industrial sectors. the scientific and technical personnel. research. design. manufacture thin-film coating material to read and reference. Contents: Chapter 1 Introduction to surface technology and engineering technology and engineering surface 1.1 Overview 1.1.1 The surface of the purpose of implementation of technology and engineering technology and engineering surface 1.1.2 Classification and basic theory 1.2 technology and surface engineering applications 1.2.1 Application of the aerospace industry in the Automotive Industry 1.2.2 1.2.3 1.2.4 Urban Construction of household appliances industry. iron and steel industry in...
