Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Lilly s Crop Book, 1912 The ground should be carefully plowed or spaded, care being taken not to go so deep as to turn poor soil on top, and the rich soil under so deep that the roots of the plants will not reach it. If the soil is a stifi clay, or if there is a hard sub-soil near the surface, it should be sub-soiled, and the ground broken up to a considerable depth without turning it over. It is best to plow stiff clay soil in the fall, leaving it rough, to be broken up by the action of the weather during the winter into a fine grained mass. If found to be packed hard in the spring it should be plowed again, and then repeatedly harrowed and rolled until it is thoroughly pulverized, and there are no lumps larger than a pea. The thorough preparation of the soil is very important; do not slight it, expecting to remedy it by cultivation after the seed is planted; neither should you make the surface smooth, leaving lumps beneath, and spaces between the lumps for the air to circulate in, and waste the moisture, for there is the home of the delicate little roots of the plants, and a soft bed must be prepared for them. The time to prepare the soil is when it will crumble into fine particles when pressed between the hands. Do not work it when it is sticky. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
