STEINER BOOKS, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Behold a beautiful book: fresh, alive, penetrating, subtle. It's not just about dreams, but about life's daily waking dreaming, the mysteries that permeate our days, the images that swarm about us. It's written as narratives folded into narratives, always captivating and educating, always enticing and even entertaining. Dreaming, she convincingly shows through intense and dramatic demonstrations with her dream groups, presents, presences, the action of imaginally real companions. Dreams are real! They are not separate from life but rather ever-present promptings to enter further and further into the fullness of life. How Dr. Coleman lets the characters, actions, circumstances, and the very worlds of dreaming reveal themselves constitutes the essence of this writing. There is no theory here. We are taken into a new kind of attentiveness, available to everyone. We learn a deep listening, being penetrated, coming into immediacy, intimacy, complexity with each and every character of a dream and what those characters are doing with us. We come to experience the...
