Excerpt from Summary Prehistory and Ethnography of Olympic National Park, Washington This report is a synthesis of available environmental, archeological, and anthropological literature augmented by a limited amount of fieldwork conducted in and around Olympic National Park, Washington. These research efforts were undertaken during the summer of 1982, when I was the archeologist on a research team which also included historians and architectural historians. I examined a number of published and unpublished documents pertinent to the Olympic Peninsula in particular and the Pacific Northwest in general, interviewed Park employees and other Peninsula residents, and also conducted archeological reconnaissance in the Park. I will present first a general review of the environmental setting at Olympic, which will help place the subsequent sections into a physical context. Then I will discuss earlier archeological research conducted in and around the Park. For a number of reasons, actual archeological research in the Park has been limited, but investigations elsewhere on the Peninsula and in the greater Northwest have provided enough data to construct at least the broad outline of prehistory. A large portion of the prehistory of...
