Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.No one can say when the end is near. It can come from a plague, warfare, or a natural disaster. For the people of Siril, the end of their world came from space. The massive solar flare that collided with their planet wasn't something they could prepare for, or prevent. Millions perished instantly, and those that survived looked to the stars in steel-eyed defiance. Karincin's life has been dominated by familial expectations, duty, and celibacy. He attended all of the correct schools, won the worthy awards, and leads a cutting edge team at the Department of Space. His life is going exactly as planned, until he's assigned a mate. Aevum is nothing like he expected. She's free-spirited, passionate, and doesn't adhere to Karincin's pre-arranged life. She challenges everything he's been taught to believe, and awakens suppressed desires he didn't know he had. He was never prepared for such an irrational craving as lust. After his planet is ravaged by natural disaster, Karincin is selected as one of 12 scouts to be sent into space to discover the looming peril to his people. It is a great honor, and one the Sirilian people desperately need him to perform. But it will make him choose between his life's work, and his own awakened heart. What awaits him in the void of space? And if he goes, would he ever return to the woman he loves? Warning: contains scenes of erotic sex between two consensual (and eager) adults, and may make you crave smart, tech-savvy men OR spunky women.
