paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 391 Publisher: China Railway Pub. Date :2010-03-01 version 1. Struts Spring Hibernate the SSH framework. is the mainstream model of light Java EE development. The JSF framework is the recent rise of a new interface development framework. These types of frames in the actual project applications are very popular. Because this book is a complete tutorial JavaEE developer. so the book chose the four most popular framework for analysis to explain. to ensure that the contents of each part of the book can be useful for the readers to improve. The materials and other similar materials biggest difference is that the materials will use an e-commerce knowledge of the system point spread to each chapter and each chapter has a part to do in the examples to explain. Examples to explain the contents of each chapter fused together. the reader will naturally form a complete e-commerce program. With this organization. each chapter of the knowledge points are also an example can be immediately verified. Therefore. the reader. after reading this book. you can on the development of a complete Java EE application workflow to have a clear understanding. The main objective of this textbook is to give readers the process of reading this book. I feel like the same as in actual participation in a project. Therefore. this material is divided into four parts. a total of 18 chapters. Each section describes a framework. each chapter includes four parts: learning objectives. knowledge points to explain. examples and exercises to explain. Learning objectives to give readers a clear understanding of the purpose of this chapter. the main provider of knowledge points to explain the various theories to explain the...
