

## Scientific American Great Science Fair Projects

---

By Scientific American, Scientific American Magazine

John Wiley and Sons Ltd, United States, 2000. Paperback. Book Condition: New. 276 x 208 mm. Language: English . Brand New Book. A special collection of science fair projects from the science authority: Scientific American magazine. From its groundbreaking magazine to its Frontiers television series, Scientific American has long been at the forefront of popularizing science in America. Now, kids can discover the excitement of science with these fascinating and illuminating science projects based on the longstanding and well-respected Amateur Scientist column in Scientific American. Kids will learn how to make their own clouds, model a fossil, grow hydroponic plants, start a mineral collection, photograph a lunar eclipse, make nonnewtonian fluids (slime!), and much more. Whether kids want to find a great idea for a science fair project, or just want to learn more about the world around them, they'll have endless hours of scientific fun with this book. Scientific American, published since 1845, reaches more than three million readers globally by subscription, on newsstands, and at . The company also publishes the quarterly family magazine, Scientific American Explorations, and a series of single-themed issues, Scientific American Presents. Scientific American Frontiers, hosted by Alan Alda, is seen on PBS by millions...
