Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. TSA, within the Department of Homeland Security, is responsible for securing the nation s civil aviation system while facilitating the movement of passengers and commerce at approximately 440 airports nationwide. TSA tests passenger and baggage screening technologies developed by industry to ensure they support TSA missions. In reviews from 2010 to 2014, GAO found that TSA encountered challenges in acquiring and deploying technologies. The Transportation Security Acquisition Reform Act contained a provision for GAO to assess TSA s test and evaluation activities for security-related technologies. This report assesses the extent to which (1) TSA s test and evaluation process helps it meet mission needs through the acquisition of passenger and baggage screening technologies, and (2) TSA has taken steps to improve the test and evaluation process. GAO reviewed DHS and TSA acquisition and test policies, analyzed testing and acquisition documentation for technologies tested in the past five years, observed the testing process at DHS and TSA facilities, and spoke with DHS, TSA, and industry officials.
