

Agribusiness Management. Increasing Food Production With Environmental Consideration

By Emmanuel Tete Darko

GRIN Verlag Feb 2016, 2016. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Scientific Essay from the year 2012 in the subject Agrarian Studies, grade: A, Atlantic International University, course: DBA, language: English, abstract: The milestone of this paper will concentrate on agriculture primary food production since food production encompasses a wide range of produce, thus all issues will be constricted to improving farm produce to meet the growing demand of the global market, while considering the sustainability of such produce with the view to ensuring exponential increase in farmers' incomes. There are four over-arching goals in writing this paper. The first, and most basic, is discussing challenges confronting increased sustainable agriculture food production. The second is discussing the underpinning sustainability by restoring and conserving the natural resource base, managing the ecological and societal sustainability issues connected to the development of food crop production by optimizing performance in existing farms and improving the income levels of smallholder producers. The third objective is to discuss hopeful but innovative channels of forward looking approach by presenting a promising way of increasing food production sustainably. The spotlight of this essay will begin with...

Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Camille Larson**

The ebook is not difficult to study; preferable to understand, it was written quite flawlessly and beneficial. You are going to like just how the author composed this book.
