Reviews

Unquestionably, this is actually the very best work by any article writer. It usually does not price a lot of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Augustine Pfannerstill)

HUMAN (PAPERBACK)

Multimodimedia, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Read the Kirkus Review below! Elijah Smith s mind has been replaced, piece-by-piece, with virtual counterparts. His transformation thrusts his survivors into a maelstrom of violence, danger, and intrigue. Only Smith has the power to save them -- provided that he is still human. Mankind has been merging with his technology since the first time a caveman picked up a walking stick. We easily accept the fact that eyeglasses, pacemakers, and prosthetic limbs improve or replace human biology. Soon we will have to accept the fact that mind too can be improved or replaced by the addition of technological components. HUMAN combines elements of spy thriller, science fiction, and romance to drive the story to a feverish climax. The haunting conclusion will make you question everything you think to know about what it really means to be human. KIRKUS REVIEW: HUMAN (reviewed on May 1, 2012) First-time novelist Berke examines the tenuous relationship between the mental and the corporeal in a tale of political tug-of-war between the secret operatives of two world superpowers. Elijah Smith, the founder of the scientific company SmithCorp, appears to have crested in old age and begun his descent into death. With the help of the precocious but scarred Dr. Bayron and Hermelinda-Smith s nurse and lover-death isn t the only option for Smith. Using materials imported from a Russian researcher who attempted to recreate the mind of a deceased government agent, Bayron sets out to reconstruct a digital model of Smith s brain that effectively preserves his consciousness in a prosthetic mind. Though the experiment accomplishes its goal, both Smith and Bayron soon discover the dangerous knowledge contained in Smith s hybrid mind: The Russian operative, whose memories...
