## PONDERING LIFE

Doctor Ergo, United States, 2012. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Have you ever just wondered about life? What is Life? Is there God? How do we fit into the universe? What is our relationship with other living things? What does it mean to be human? Doctor Ergo provides you with a firm background and vantage point from which to view those questions. You will gain a comprehensive perspective on Life and the human condition - from the Big Bang, through Life history on this planet, to the current condition of our human mind and species, and some solid thoughts on what Life is. This is a Story of Life. In a Darwinian world, our mental capacity has enabled us to ascend to the pinnacle of the survival pyramid. Therefore, the essence of the story about our species centers on our mind. Our cognitive skills are built upon the neural architectures that originally developed for vision and for speech/hearing. We can be aware of the 2 sides of our mind through introspection of our own consciousness: Vision based - non-verbal emotions, feelings and intuitions coming from our vision-based cognition in our Right Brain. Speech based - words, thoughts, and reasoning coming from our speech-based cognition in our Left Brain. Vision developed quickly in the Cambrian Period (570 million years ago) when the earliest animals with body forms emerged. Vision enabled the animal to see the world, and gave the animal a sense of self, i.e. that which was viewing the world. Consequently the concepts of world and self are deeply embedded in the cognition that developed from the vision neurological architecture. Likewise, Darwinian survival necessitated identification of same-species animals (for protection and reproduction); hence the concept of group is...
