

Effective and Efficient Process Engine Evaluation : Schriften aus der Fakultät Wirtschaftsinformatik und Angewandte Informatik der Otto-Friedrich-Universität Bamberg 25

By Simon Harrer

University Of Bamberg Press Okt 2017, 2017. Taschenbuch. Condition: Neu. Neuware - Business processes have become ubiquitous in industry today. They form the main ingredient of business process management. The two most prominent standardized languages to model business processes are Web Services Business Process Execution Language 2.0 (BPEL) and Business Process Model and Notation 2.0 (BPMN). Business process engines allow for automatic execution of business processes. There is a plethora of business process engines available, and thus, one has the agony of choice: which process engine fits the demands the best The lack of objective, reproducible, and ascertained information about the quality of such process engines makes rational choices very difficult. This can lead to baseless and premature decisions that may result in higher long term costs. This work provides an effective and efficient benchmarking solution to reveal the necessary information to allow making rational decisions. The foundation comprises an abstraction layer for process engines that provides a uniform API to interact with any engine similarly and a benchmark language for process engines to represent benchmarks in a concise, self-contained, and interpretable domain-specific language. A benchmark framework for process engines performs benchmarks represented in this language on engines implementing the...
