

Astronomy vs. History (Paperback)

By Dr Anatoly Fomenko

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.ALL solar, lunar eclipses mentioned in chronicles presumed to be written before XVI century could not and did not take place at the very time and exact location reported to us by the ancient authors thereof. Learned chroniclers did like so much to stress the importance of the event with some phenomena in the sky. Either they lied or were wrong, or both. Verdict: the celestial events took place some other time and some other place or there was nothing spectacular in the sky at that very moment. Voila! Astronomy vs History crowns scores of years of meticulous and extensive research performed by the eminent mathematician Anatoly Fomenko and his colleagues. This research started actually as an anecdotal byproduct of Russian-American competition in Moon exploration. Chief astrophysicist of NASA Robert R.Newton discovered a very strange phenomenon in lunar mechanics proving irrefutably that the solar eclipses of Antiquity referred to in ancient Chronicles were actually medieval. The author dissects every historical age and analyzed the data from every source imaginable - Ticho Brahe, Ptolemy, and Copernicus disguised as ancient Ptolemy take the blame...
