RUSSIA 2010: AND WHAT IT MEANS FOR THE WORLD : THE CERA REPORT (PAPERBACK)

Random House USA Inc, United States, 1995. Paperback. Condition: New. Revised edition. Language: English . Brand New Book ***** Print on Demand *****.What will Russia be like in the year 2010? What impact will the future of Russia have on the West? And what could we do now to help shape a better future? In this brilliant and illuminating book, Daniel Yergin, the Pulitzer Prize-winning author of *The Prize*, and Thane Gustafson, leading expert on Russian politics and economics, present four histories of the future for Russia and offer a vision of capitalism Russian style. Yergin and Gustafson provide essential insight into emerging power relationships, local wars that could turn into larger conflicts, the time bombs of ethnic strife that sit on Russia's borders - and the economic and political opportunities facing us in the future. *Russia 2010* grew out of a confidential study developed for a select group of international companies by Cambridge Energy Research Associates (CERA), a leading international consulting firm. Yergin and Gustafson focus on Russia's enormously difficult triple transition - from dictatorship to democracy, from communism to a market economy, and from empire...
