Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from The Origin, Tendencies and Principles of Government: Or a Review of the Rise and Fall of Nations From Early Historic Time to the Present; With Special Considerations Regarding the Future of the United State as the Representative Government of the World and the Form of Administration Which Will Secure This C Specializations have been characteristic of the present generation. Branches of science, philosophy or art have been selected and treated as though possessed of great and independent importance. The process of individuality has been the cause; but true evolution, whether in man or matter, consists in viewing whatever is presented for consideration as being related to all the rest, and as a part of the whole. It will be evident to the careful reader that the various subjects contained in this volume were not originally prepared for this purpose. In several instances the same points receive consideration, which, while they perhaps interfere with the general consecutiveness of the entire work, would interfere still more with the construction of its parts, were they omitted. For this we have no other apology to offer. Perhaps, however, an explanation is due for errors which have undoubtedly been passed unnoticed. During the publication we have been variously engaged and not able to devote the time actually requisite to reviewing a work of this character. Very much of the proof-reading has necessarily been intrusted to others, and we regret that some typographical errors have crept in. Those we have noticed are so evident they scarcely need be mentioned. In one case evolution has been rendered revolution; in another, evolve, revolve; in another, farce, force, etc. All who might desire to read...
