Divine Economy Consulting, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A PICTURE OF THE HEART: This is a book about the microeconomic perspective. Microeconomics is important for you to understand. Producing so you can eat (and prosper) is the starting point in microeconomics. Microeconomics is not about data and equations being used to generate graphs and diagrams - although unfortunately that is how microeconomics is taught - which is the reason why there is such a disconnect between the real world and academic economics. Each person and every business firm has to produce something to earn an income to be used to satisfy desires and objectives. The heart of microeconomics will surprise you. At the heart, then, is offering something of value in a way that makes it possible, in turn, to acquire those things that are regarded as valuable. Value - which humans assign subjectively - is a critically important part of microeconomics. How do individuals discover and react to information in the market? Prices that appear as part of the spontaneity of the market act like words, conveying meaning. Those who are actively exercising their entrepreneurial spirit read these messages and take risks, with their goal being to earn a profit by serving the sovereign consumer. It is this active involvement that drives the economy forward by dispersing useful information throughout, including across the time horizon. All this is part of the language of the market. What is different about The Human Essence of Economics ? It is a qualitative analysis rather than a quantitative analysis and it examines the economy in its real condition of dynamic disequilibrium rather than the fictitious condition of equilibrium. Why is this approach better? What really sets it apart is the microeconomic model developed deductively...
