Brand New Book ***** Print on Demand *****.Dr. John O Keefe, a brilliant young professor of organic chemistry and petroleum engineering, is working on a secret new catalytic process for refining oil that promises to deliver the United States from its dependence on foreign oil while at the same time yielding a safer, lower-priced and more Eco-friendly product than traditional gasoline. The top-secret lab activities of Dr. John O Keefe and his research partners whose work is forced underground by nefarious threats from terrorists. The fortuitous planning and engineering of a team of patriots, elected officials and engineers to forge an energy-independent future for the United States of America. And much more.
