FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Laboratory Guide in Histology The directions in this manual are designed to economize the student s time by reducing to a minimum the mis directed energy which is inevitable when an unfamiliar subject is pursued without guidance. The instructions for each topic are arranged in logical sequence and should be followed in the order given. Theoretically it is desirable to approach laboratory work with one s mind unbiased by preconceptions derived from texts. Owing, however, to the crowded curriculum this time-consuming method is impracticable. Hence it is essential to prepare for each laboratory period by reading previously an account of the work to be covered that day. In this way a preparation and perspective are gained which can not be Obtained by using the laboratory as a reading room.
