Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from The Application of Logic This book attempts to state with a minimum of technicality the logical doctrines that remain when we discard those parts of the traditional logic which are misleading in application. While trying to approach the difficulties by easy stages, and fully recognising that simplification is a gain wherever its cost in error is not too great, I have found it necessary to show on occasion the harm that is done by the delusive simplifications on which the traditional logic is based. But as the aim of the book is construction rather than technical criticism the special references desirable for the latter purpose have here been generally omitted. The old system has lost much of its former authority both as a court of appeal in real disputes and as a scientific analysis of real thinking. But it is still unfortunately retained as an elementary subject of instruction. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
