Excerpt from Seventh Annual Report of the State Mine Inspectors of the State of Missouri: For the Year Ending June 30, 1893 From the number of fans and furnaces added during the past year, it is apparent that ventilation is receiving much more attention from mine managers than formerly. It is a good sign, and will be regarded with approval by the many so deeply interested, and all those familiar with the necessity for pure fresh air in mines. The large number of escapement-shafts completed and in progress evidences the effort in the enforcement of the law relating thereto, as well as showing the willing observance by many of the same law.
