OLD CLOTHES, NEW LOOKS: SECOND-HAND FASHION

[DOWNLOAD](#)

Bloomsbury Academic. Hardcover. Condition: New. 288 pages. Dimensions: 9.2in. x 6.2in. x 0.8in. Second-hand fashion has a history as old as the production of clothing itself, but until recently it was given little consideration. Used clothes represent the largest numbers of existing garments but until recently they were not perceived as serious fashion items. However, this has changed dramatically with the rise of vintage web sites, value clothing chains, and the fashion medias perpetuation of the idea that secondhand clothes can be recycled into avant-garde cool. This book not only shows how important used clothing has become but also what role it plays in culture and history. The Japanese, for example, traditionally salvage sections of kimonos, while in India garments are inexhaustibly recycled. This cross-cultural and historical perspective fills a major gap by offering fresh insights into the innovative use of secondhand dress and age-old traditions of recycling fashion. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
