## THE EATERS: BOOK ONE: ORIGIN

Prospecta Press. Paperback. Condition: New. 272 pages. The Eaters is a character-driven, emotionally charged, action packed first person narrative trilogy, told by the strong but quirky woman protagonist , spanning 500 years, two galaxies, and three sentient species, bridging the genres of urban fantasy and sci-fi and appealing to women as well as men. Book One: Origin opens in a mid-21st century Earth ravaged by climate change, where Dr. Mina Brice traverses the beleaguered globe with a team of scientists on missions to save species from extinction. Mina is a socially awkward, OCD woman with a secret ability animal telepathy all of which help her career but keep people at a distance, particularly physician Jack MacConnell, a dreamy and magnetic guy shes always been crushing on. On a fateful mission to Nigeria, Mina and Jack finally hook up, but their budding relationship is interrupted by a massive tsunami that washes them all away. Five hundred years later, Mina awakens in a utopian city created by seemingly benevolent aliens, the Travelers, and is informed by their human liaison, a severe, chain smoking woman known only as the Director, that, because of her previous lifes accomplishments, she was cloned to help oversee the well-being of the new Earth, restored by the Travelers after humans destroyed it centuries earlier in nuclear war. Later we learn that Mina was chosen for cloning because of her telepathic abilities, which will suit the Travelers true purpose: Theyve introduced the ultimate apex predator, called Eaters for brutally obvious reasons, into the ecosystem to cull the increasing population and toughen the too-docile humans, as the original Eaters did on the Travelers home world millennia ago and the Eaters are genetically engineered human clones. Only after Mina is reunited with Jack in the city of Origin does she realize...
