McGraw-Hill Education - Europe, United States, 2003. Paperback. Condition: New. Language: English . Brand New Book. This is the first hands-on guidebook for macrowave investing - today s most potent, strategically advanced event-trading technique. Macro events play a large part in determining movement in markets, sectors, and individual stocks. Often these events are preceded by signals that a price-impacting event is about to occur. The key to success is using those signals to determine your buys and sells. The companion to Dr. Peter Navarro s bestselling *If It s Raining In Brazil, Buy Starbucks* , which won over the investing world to the effectiveness of macrowave investing, this workbook features: techniques to determine the direction of the market, sector trends, and stocks within those sectors; exercises, review questions, checklists, and more to prepare you for macrowave investing; and the three-point break method - a tool to identify trend reversals and the profitable points at which to buy or sell. Financial markets are driven by the emotions, and reactions of investors to headline reports and events. *When the Market Moves, Will You Be Ready?* shows you how to use the predictive strength of macrowave investing to determine when such events will occur, the impact of these events on the market, and the sectors or stocks that will help you profit from the aftermath. This book takes a wonderful bifocal look at investing. If you want a book that is both practical and insightful, this is the book for you - Julie Stav, author of the Number 1 bestseller *Get Your Share* .
