Little, Brown Company, United States, 2010. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Today the very ideas that made America great imperil its future. Our plans go awry and policies fail. History s grandest war against terrorism creates more terrorists. Global capitalism, intended to improve lives, increases the gap between rich and poor. Decisions made to stem a financial crisis guarantee its worsening. Environmental strategies to protect species lead to their extinction. The traditional physics of power has been replaced by something radically different. In *The Age of the Unthinkable*, Joshua Cooper Ramo puts forth a revelatory new model for understanding our dangerously unpredictable world. Drawing upon history, economics, complexity theory, psychology, immunology, and the science of networks, he describes a new landscape of inherent unpredictability--and remarkable, wonderful possibility.
