

Geodetic Surveying: And the Adjustment of Observations, (Method of Least Squares) (Classic Reprint) (Paperback)

By Edward L Ingram

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Geodetic Surveying: And the Adjustment of Observations, (Method of Least Squares) In the first part of the book the initial chapter takes up the principles of triangulation work as the best introduction to geodetic work in general. Nothing new of any special importance is available in the general scheme of triangulation, and the chapter is written as briefly and logically as possible. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
