## A NUMERICAL MODEL FOR COMBUSTION OF BUBBLING THERMOPLASTIC MATERIALS IN MICROGRAVITY

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 72 pages. Dimensions: 11.0in. x 8.5in. x 0.2in. A numerical model is demonstrated for the pyrolysis of a spherical thermoplastic sample in microgravity including effects of bubbles. The model combines nucleation, growth, and migration of individual bubbles in 3-D space with a finite element model that solves the 1-D radial equation for the temperature field. Energy calculations include surface losses due to radiation and convection, conductive heat transfer...

### Reviews

*Totally among the best ebook I actually have ever go through. It is probably the most awesome ebook we have go through. You can expect to like just how the blogger publish this ebook.*

-- **Emiliano Murphy**

*This is the best book i have read until now. It can be filled with knowledge and wisdom Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Nadia Konopelski**
