Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Dele Atanda s ground-breaking book examines the new cultural and social evolution that is driven by the power, opportunity and thirst for information afforded by the internet. Could technology be changing the fundamentals of human existence? Since the birth of the internet, humans have been empowered by their ability to connect with every corner of the globe, retrieve information in a heartbeat and expand their knowledge beyond all of their horizons. Causing drastic social-political changes, many experts believe the internet could be changing the very fundamentals of human existence. One such expert is Dele Atanda, author of The Digitterian Tsunami: Web 3.0 and the Rise of the NEO Citizen (Volume 1: The 21 Principles Driving The Evolution of The Internet) , a ground-breaking new book that shines a vital spotlight on how the internet is driving global change. Synopsis: The Arab Spring uprising, the electoral victories of President Obama, the emergence of new currencies such as Bitcoin and the rise of WikiLeaks and online activist groups like Anonymous were all inevitable events driven by predictable social-cultural trends enabled by the Internet. Though originally written in 2009, the twenty-one key principles driving the evolution of the Internet identified in The Digitterian Tsunami have already proved themselves with social-political changes we have seen over the past few years. Atanda suggests that we are on the cusp of a new era of cultural revolution and social evolution driven by an unprecedented expansion of opportunity, knowledge, and empowered citizens. He suggests that the Internet is changing the ways in which we interact with each other and shape our societies, our selves and our environment as a whole and projects likely outcomes from these changes. The first volume...
