DK Publishing (Dorling Kindersley), United States, 2014. Paperback. Book Condition: New. Workbook. 276 x 212 mm. Language: English . Brand New Book. Reinforce learning decimals at home with **10 Minutes a Day: Decimals**, a workbook that supports school curriculum and classroom teaching on decimals by adding quick but valuable practice time for adding, subtracting, multiplying, and dividing decimal numbers. **10 Minutes a Day: Decimals** utilizes a proven learning strategy for learning decimals. Encourage your child's learning with the effective little and often learning strategy outlined in **10 Minutes a Day: Decimals**. Proven effective, this leveled, curriculum-supporting method is great for children who resist long periods of study, or for children who need focused attention in decimals. **10 Minutes a Day: Decimals** is different than other study books because it includes an embedded LCD timer that encourages children to beat the clock, adding an extra element of challenge to focused study time. The **10 Minutes a Day: Decimals** workbook is broken into study challenges and exercises designed to take up to 10 minutes to complete. Children work through a series of quick-answer decimal questions, then move onto extension activities and timed exercises if they have time left after the first round of study questions. The timer acts as a stopwatch for skills challenges, and many kids are surprised to find that beating the timer can actually be fun. **10 Minutes a Day: Decimals** helps children learn by supplementing school curriculum and strengthening the important skill of learning decimals. Parents will love that **10 Minutes a Day: Decimals** helps them fit short bursts of study into already busy days, and that **10 Minutes a Day: Decimals** includes an answer key for parents, as well as notes on common pitfalls and how to teach children to overcome them.
