This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Among such the following may be cited: - (1) War is a frightful calamity, if at any time justifiable, only when it is the sole means of preventing an even greater evil. (2) War of itself settles no dispute; it only displays which of the combatants is the stronger. All settlements of disputes are effected by diplomacy after the mutual exhaustion which war has produced. (3) In the settlements of disputes after war, the arrangements are not often based on justice: the terms of treaties of peace are generally dictated by conquering strength, and submitted to by conquered weakness. (4) In the nature of things, and as an historical fact, such treaties can only endure so long as the victor remains relatively the stronger, and the vanquished remains conscious of his relative inferiority in force.
