

The Syndetic Paradigm: The Untrodden Path Beyond Freud and Jung (Paperback)

By Robert Aziz

State University of New York Press, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book. In The Syndetic Paradigm, Robert Aziz argues that the Jungian Paradigm is a deeply flawed theoretical model that falls short of its promise. Aziz offers in its stead what he calls the Syndetic Paradigm. In contrast to the Jungian Paradigm, the Syndetic Paradigm takes the critical theoretical step of moving from a closed-system model of a self-regulatory psyche to an open-system model of a psyche in a self-organizing totality. The Syndetic Paradigm, in this regard, holds that all of life is bound together in a highly complex whole through an ongoing process of spontaneous self-organization. The new theoretical model that emerges in Aziz s work, while taking up the fundamental concerns of its Freudian and Jungian predecessors with psychology, ethics, spirituality, sexuality, politics, and culture, conducts us to an experience of meaning that altogether exceeds their respective bounds.
