Excerpt from The Ventriculidae of the Chalk: Their Microscopic Structure, Affinities and Classification; Including Figures and Descriptions of Every Species I doubt not that when the first priest of old nailed to the column s head, after the solemn sacrifice was done, the scalp which he had torn off the devoted ram, he thought he knew very well what a ram s head was, and would have pitied any unhappy Wight who might have suggested any resemblance between the head and the tail of the beast which had just smoked upon the altar. It has been reserved for modern science not only to sug gest but to demonstrate, by one of the most beautiful, most logical, most philosophical, and at the same time most scienti fically important trains of investigation that has been ever fol lowed up, that between these so incongruous parts there are clear and positive homologies, and that no one can truly know either part who does not study those homologies. It has been by treading, though at an humble distance, and, I am fully con scious, with a too...
