To those who wish to try the experiment, I would suggest that the jump be made in gymnasium slippers or at least in shoes with low heels, and as the factors, weight, height, and height jumped are to be multiplied and divided in the calculation, that all the measurements be made with the greatest accuracy. If the test is of any value, then the standardization of it, and the collection of different data concerning it will, of course, be of the greatest importance, and follow naturally for the benefit of those who want to make use of it.
