Reviews

This publication is indeed gripping and intriguing. It is actually written in basic terms and not difficult to understand. I am just pleased to explain how here is the greatest publication we have read through during my own lifestyle and could be the best pdf for at any time.

This book is a biography of the authors father, Josef Veltjens known Seppl, written in the form of a novel; although it is true, historical, and factual, and records situations as closely as possible to reality, it inserts private conversations not always available from records. As fighter pilot and squadron leader in WWI, he received the highly coveted Prussian order, the Pour le Mrite or Blue Max, which made him a popular hero. Many events in Seppls life where shrouded in secrecy, because they were in conflict with the Treaty of Versailles or Hitlers specific prohibitions. Their disclosure could well have resulted in his persecution and even death. His patriotic convictions and dislike of Bolshevism influenced all his commercial decisions in providing arms to troubled nations in their revolutionary battles or defence against oppressive neighbours. Thus he helped Turkey, Morocco, China, Spain and Finland always a step ahead of politics. There is no doubt that his actions influenced the outcomes. His personal confrontation with Hitler in 1931 stirred the Gestapo and SS into pursuing him for the rest of his life, and without the protection of his first world war comrade if not friend, Hermann Gring, they would have succeeded to get him earlier than they finally did. His final journey was the successful negotiations after the removal of the Italian Gold Reserves in the interest of all the stakeholders: The kingdom of Italy, the newly formed Republic of Italy, Germany, and not least of all Italys major creditor, Switzerland.
