DC MOTOR CONTROL USING REAL-TIME LINUX

DC motor control using
Real-Time Linux
The control is in your finger tips

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The control is in your finger tips | System Control using Embedded systems or DSP kits can by no means match the user friendly nature of the computer. I am interfacing a hardware that is, in my case, a dc motor and is controlling its operational speed through the software. All the processing is done by the computer in Real Time and to introduce changes in the system's performance is just finger...

Reviews

Thorough manual for pdf lovers. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Kaycee McGlynn**

Without doubt, this is actually the best job by any publisher. It is writter in basic phrases instead of difficult to understand. You will like the way the author publish this publication.

-- **Dr. Marvin Deckow**
