Sage Publications, New Delhi, India, 2010. Paperback. Book Condition: New. First Edition. Skill Training for Social Workers: A Manual, which integrates social development in social work education, responds to the demand of indigenous textbooks and teaching materials for social work educators, scholars and students. Unlike theory books of social work which list the skills required for the practice of social work methods but do not enable the development of these skills, this manual bridges the gap by giving concrete exercises for the development of method-linked skills. Some of its main features are: - Includes theoretical inputs, games and exercises on the theme of understanding perception, self-awareness, sensitivity, communication and working with individuals and groups. - Covers a variety of topics, role plays, songs, case studies, street plays and exercises on self-awareness, self-development, SWOT analyses, communication, goal setting, time management and stress management. - Allows for flexibility to adapt modules to the local realities, drawing from students field experiences and using indigenous agency case records or material. This manual carries a continuous discourse on developing interactive work ability in individuals, ensuring the holistic professional development of the trainees. It helps them understand their values and capacities as professionals and equips them for skilled intervention for working at different levels, with a variety of client groups. It facilitates the inculcation of professional and global competencies essential for social workers. It will also be useful to trainers in other fields who seek to develop skills in working with people and their problems. Printed Pages: 308.
