

## Aeromedical Transportation: A Clinical Guide (Paperback)

Filesize: 6.93 MB

### ***Reviews***

*A whole new e book with an all new point of view. It is one of the most incredible book i actually have go through. I am easily could possibly get a enjoyment of reading through a written book.*  
*(Nathanael Treutel)*

## AEROMEDICAL TRANSPORTATION: A CLINICAL GUIDE (PAPERBACK)

Taylor Francis Ltd, United Kingdom, 2006. Paperback. Condition: New. 2nd Revised edition. Language: English . Brand New Book. Still the only book published anywhere in the world which is devoted entirely to the principles of aeromedical transport, Aeromedical Transportation has rightly become known as the sole reference for the industry. This second edition has been radically revised and updated; featuring the latest research, updated references and new chapters on the transport of intensive care patients, and medical emergencies/death in flight. Since the first edition was published in 1996, the concept of evidence-based medicine has been accepted as essential in any book which endeavours to be the accepted knowledge base in its subject area. A very practical text, international in its approach, much of its content is devoted to clinical matters. Administration and organisation are also discussed, but are addressed from the standpoint of the clinical aeromedical escort. The text is suitable for medical, paramedical and nursing personnel and for those working in organizations whose duties include the transportation of the sick and injured by air.
