Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Large Print. Language: English . Brand New Book ***** Print on Demand *****.White Hawk medicine woman has been healing since 1987. A medicine woman wasn't something she became. It was something she had always been. Enthusiastic about growing flowers from the age of seven, she had a dream of creating a beautiful flower garden. She also overcame chronic hay-fever to make this dream a reality. Going a step further she works with the *blueprint of the flowers to create flower essences. Which are a wonderful life path healing tool. Her story is one of huge personal growth and perseverance helped massively by her own flower essences. (But that's another book yet to be written). She was born in North West London in 1960 and grew up very outgoing and creative. She started making her own clothes at 11 years old and continues with that to this day. *Plants and flowers carry messages and patterns of behaviour within them. This is known as the blueprint or doctrine of signatures by essence producers. How the plant flowers and grows is translated into essences. For example, brightly coloured nasturtiums germinate fast, grow vigorously and travel and trail. My nasturtium essence Seize the Day is for not wasting time and moving into new areas without fear.
