

## The Genealogy of Morals: With Editor's Comment and Biographical Note on Author (Aziloth Books) (Paperback)

Filesize: 9.34 MB

### **Reviews**

*Basically no phrases to clarify. It really is written in straightforward phrases rather than hard to understand. You will not sense monotony at any moment of your own time (that's what catalogues are for concerning if you ask me).*

Aziloth Books, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. German philosopher and philologist, Friedrich Nietzsche, was one of the most influential thinkers of our time. His works include critical texts on philosophy, science, cultural norms, religion and morality. His aim was the truth as he saw it, no matter how unpalatable, penned in a style characterised by metaphor and aphorism. First published in 1887, The Genealogy of Morals is considered Nietzsche s most analytically powerful work. It is the least aphoristic and perhaps because of that, his examining lens is all the more unrelenting. The polemic expands on the ideas that were sketched out in Beyond Good and Evil by tracing the history of ethics and our changing interpretation of concepts such as good and bad, guilt and conscience, and ascetic ideals. In so doing, he spares no feelings towards our moral prejudices, religious doctrines or the priesthood, particularly Christian and Jewish. This is a treatise that is as thought-provoking and contentious today as when it was first published - Nietzsche at his analytical best.
