The reason of attraction remains unfathomable. Human relationships and psychology has always been a subject of constant study for millions of people. Even when we know something is unattainable, still it becomes our object of desire we cry, we whine, we complain. When love is unrequited, the passion gets intense. The passion makes you believe that the unreal is a possible reality, myths can turn to facts and love is not a fool s paradise. But, since when was love easy? It has always been at its complicated best for people to go through an emotional catharsis and despite they being hurt a zillion times, it still enamours them. Anurag and Ashima are two completely different people and yet there is something that draws them closer. A few glimpses to begin with, was it just an infatuation? Was their chance meeting and exchange of a few glances something ordained by destiny? Does their relationship blossom into love when they come closer in the virtual world, where barriers of distance dissolve? iHold Me Will you once . is right there as a witness to those many subtle, yet crucial points of time and distance where destiny manoeuvres relationships.
