THE CLINIC AND ELSEWHERE: ADDICTION, ADOLESCENTS, AND THE AFTERLIFE OF THERAPY (IN VIVO)

University of Washington Press. Paperback. Condition: New. 172 pages. Despite increasingly nuanced understandings of the neurobiology of addiction and a greater appreciation of the social and economic conditions that allow drug dependency to persist, there remain many unknowns regarding the individual experience of substance abuse and its treatment. In recent years, novel pharmaceutical therapies have given rise to both new hopes for recovery and renewed fears about drug diversion and abuse. In *The Clinic and Elsewhere*, Todd Meyers looks at the problems of meaning caused by drug dependency and appraises the changing terms of medical intervention today. By following a group of adolescents from the time they enter drug rehabilitation treatment through their reentry into the outside world-the clinic, their homes and neighborhoods, and other institutional settings-Meyers traces patterns of life that become mediated by pharmaceutical intervention. His focus is not on the drug economy but rather on the therapeutic economy, where new markets, transactions of care, and highly porous conceptions of success and failure come together to shape addiction and recovery. The book is at once a meditative work of anthropology, a demonstration of the theoretical and methodological limits of medical research, and a forceful intervention into the philosophy of therapeutics at the level of the individual. Todd Meyers is assistant professor of medical anthropology at Wayne State University in Detroit. Unflinching and erudite, *The Clinic and Elsewhere* is an evocative ethnography on the meaning of clinical encounters in an age of adolescent addiction. For people living with addictions, family members, treatment providers, and all who struggle with recovery, Meyers shows how much place matters for the therapeutic careers of adolescent patients. -Nancy D. Campbell, author of *Discovering Addiction: The Science and Politics of Substance Abuse Research* A provocative and innovative portrayal of the real-life tension between curing and...
